WELCOME

TO TAMPA BAY HOMESCHOOL CONFERENCE

Hello Tampa Bay Homeschoolers,

Welcome to the inaugural Tampa Bay Homeschool Conference! This is such an exciting time to be a homeschooler in the state of Florida. We are so thrilled that you chose to spend part of your weekend here with us.

At TBHC, we are proud to support two worthy organizations: The Home Education Foundation and SALT of Trinity. SALT of Trinity began with one mom's vision that her children deserved to experience a life outside classroom walls and it now transforms bright ideas into unforgettable experiences for hundreds of homeschoolers across the Tampa Bay area. The Home Education Foundation (HEF) began with one mom's vision that her children deserved better than what they were getting in a government school classroom and it has grown into the most instrumental organization fighting for educational freedom and the rights of homeschoolers in our state.

Please join us in the continued support of HEF by staying on property for lunch - ALL the food and beverage vendors on site will be donating 10% of their proceeds from today directly to Brenda and her team! Thank you to our amazing food vendors and Trinity Commons Coffee for making that possible.

**THIS IS SUCH AN
EXCITING TIME TO BE
A HOMESCHOOLER IN
THE STATE OF FLORIDA!**

A special thank you goes out to our Platinum Sponsor, Probeyahn Group powered by EXP Realty. Christina Probeyahn is an innovative and hard-working homeschool mom and realtor. Be sure to stop by her booth to meet her and her team today!

We pray that today will be one of inspiration, filled with nuggets of wisdom shared by our many wonderful speakers, which you can take home with you (along with all those new books, games and goodies!) - refreshed and empowered to make THIS year the best year yet in your #homeschoollife!

All My Best,

Transitioning From the Classroom to the Living Room

BY RACHEL GOOD

School at home should not imitate school in the classroom. If you're wondering what that change would look like for your family, come get plenty of ideas on how to help your kids (and yourself) make the switch. It takes time to deprogram and establish a new normal, but the process can be a joyful time as your family begins this adventure.

I'm Not Sure I Want My Kids to Be Homeschooled

BY RACHEL & JOEL GOOD

Calling all doubters – come hear from a homeschool mom, and the man who supports and encourages her. Ask your questions, hear from a dad who has had questions of his own over the years, learn how to take that step of faith, and gain some clarity on whether home education is right for your family.

How Do I Know If I Can Do This?

BY RACHEL GOOD

If you're upright and breathing, you can do this! God has equipped each of us to fulfill the mission to which He has called us. This is the pep talk every parent needs before the big game, and you will walk away with the confidence to succeed in your endeavor! You are more than qualified to oversee your children's education, and this session is for anyone who may be doubting their abilities.

Homeschool Survival Kit

BY ANGELA SARABIA

The homeschooling journey is a marathon, not a sprint. Veteran homeschool mom Angela Sarabia has been

running this marathon for over 10 years and will share essential tools, tips, and practices you can put in place now to avoid burnout and ensure success.

What is Homeschool Success?

BY ELYCE TATE

What really is "successful" homeschooling? Who defines it? How do we even know if we're even heading in the right direction? Truly each one of us as a parent is fully equipped with everything we need to raise and homeschool our children. We may have moments, even days, of doubt but we were given each one of our children by grand design. Perhaps the key lies not in the definition of "success" but in the questions themselves? Maybe whatever "success" looks like boils down to one simple yet profound question.

Embracing Our Freedom To Teach

BY LEILANI MELENDEZ

Many of us have a hard time realizing just how much our thinking has been influenced by the current public education system. In this talk, we'll look at the history of public school education in America and how it has affected our thoughts and priorities. Once we recognize that the current model is not the be-all, end-all of education, we can minimize the impact of such narrow philosophies in our homes and allow ourselves the freedom to broaden our approach and homeschool based on informed choices.

It will discuss the role of the homeschool parent in properly "feeding" children's minds so they will grow intellectually and form intimacy with a wide range of subjects. Come learn the principles of this early 1900s philosophy that has greatly influenced the homeschool community.
